Thayer School of Engineering School Day at this year's Formula Hybrid Competition.

Tuesday, May 1, 2012

At the New Hampshire Motor Speedway, Loudon, NH

On Tuesday, May 1, 2012, students on Team Vista will take part in School Day at the Formula Hybrid Competition at the New Hampshire Motor Speedway in Loudon, NH. The Thayer School of Engineering at Dartmouth College in Hanover, NH sponsors the event.

The competition challenges college and university students to design, build, and race high-performance, plug-in hybrid and electric vehicles. This year, more than 30 teams will compete. School Day is an opportunity for middle and high school students to see what engineering really involves: creativity, teamwork, and solving real-world problems. Volunteers will escort each school group to team garage bays to watch the teams working on their vehicles. Team members will show the racecars to the students and answer questions. For more information, go to: <http://www.formula-hybrid.org/>

We arrive at Loudon at 10:00 a.m. Our guided tour will last about two hours. Picnic tables and an onsite restaurant are available. We will be eating lunch there. Students should bring a bag lunch rather than purchasing food at the speedway.

We will leave school at 8:45 a.m. and return to school in time for regular busses at 2:25 p.m. There is a \$4.00 fee to help defray the cost of busses for this trip. Partial and full scholarships are available. Any money you can afford helps to defray the cost of the trip. Please also sign and return the **Parental Consent, Release And Waiver of Liability, Assumption of Risk, and Indemnity Agreement (PLEASE SIGN BOTH SIDES)**.

Students will not be driving any cars, only taking a tour. This form is from the NH Motor Speedway.

My child has permission to attend Vista's trip to the Formula Hybrid Competition at the NH Motor Speedway in Loudon, NH on Tuesday, May 1, 2012.
